

Stay Up to Date: Get a Booster*

IF YOU GOT ...	WHO SHOULD GET A BOOSTER? **		WHO SHOULD GET A SECOND BOOSTER?		WHICH VACCINE?
		<i>when to get it</i>		<i>when to get it</i>	
Pfizer-BioNTech	Everyone 5+	At least 5 months after completing the primary series (first and second dose)	Everyone 50+	At least 4 months after the first booster	Adults 18+ Any mRNA vaccine (Pfizer or Moderna) People 5-17** Pfizer
Moderna	Adults 18+	At least 5 months after completing the primary series (first and second dose)	Everyone 50+	At least 4 months after the first booster	Any mRNA vaccine (Pfizer or Moderna)
Johnson & Johnson (Janssen)	Adults 18+	At least 2 months after completing the primary series (single dose)	Everyone 50+ and those who got Johnson & Johnson vaccine for their primary and first booster dose	At least 4 months after getting the first booster	First booster Any mRNA vaccine is preferred over Johnson & Johnson Second booster Any mRNA vaccine (Pfizer or Moderna)

*People who are moderately or severely immunocompromised should follow a separate schedule for their primary series and booster doses (see next page).

**The Pfizer-BioNTech vaccine is the only COVID-19 vaccine authorized for use in children and teens ages 5-17.

Stay Up to Date

If you are moderately or severely immunocompromised, get an additional dose and your booster dose(s)

IF YOU GOT ...	AGE	PRIMARY SERIES		BOOSTER DOSE 1		BOOSTER DOSE 2	
		# of doses	timing	eligible	timing	eligible	timing
Pfizer-BioNTech	5-11	3	Dose 2 21 days after 1st dose Dose 3 at least 28 days after 2nd dose	yes*	at least 3 months after 3rd dose	no	2nd booster dose not recommended for this age group at this time
	12+			yes*	at least 3 months after 3rd dose	yes	at least 4 months after 4th dose
Moderna	18+	3	Dose 2 28 days after 1st dose Dose 3 at least 28 days after second dose	yes	at least 3 months after 3rd dose	yes	at least 4 months after 4th dose
Johnson & Johnson** (Janssen)	18+	2	Dose 2*** mRNA vaccine (Pfizer or Moderna) 28 days after 1st dose	yes	at least 2 months after 2nd dose***	yes	at least 4 months after 3rd dose***

*The Pfizer-BioNTech vaccine is the only COVID-19 vaccine authorized for use in children and teens ages 5-17.

**An mRNA vaccine (Pfizer or Moderna) is preferred for people ages 18 and older, but the Johnson & Johnson vaccine may be considered in some situations.

***The second dose after a first dose of the Johnson & Johnson vaccine should be an mRNA vaccine. For the first booster, an mRNA vaccine is preferred for people 18+, but you may consider the Johnson & Johnson vaccine in some cases. The Johnson & Johnson vaccine cannot be used as a second booster dose.
